NEW Backhoe Loaders by Bobcat: B700 – B730 – B750 – B780 ***POWERFUL, RELIABLE & DURABLE....!!!***

Dear Bobcat Partner,

BOBCAT is pleased to announce the launch of its new product for the Middle East and Africa region: the **Bobcat Backhoe Loader**.

- B700
- B730
- B750
- B780

You can place your orders for Backhoe Loaders on **iStore!**

Bobcat toughness – it's in our DNA

Because the quality of 'toughness' is part of Bobcat's DNA, it's built into all of our product lines – and so it's a key feature of this new product, too.

With 4 strong, versatile models – and a wide range of Bobcat optional equipment – the Backhoe Loader can be configured exactly for the job. Whatever the application – digging, trenching, breaking or material handling (just to name a few) – Bobcat Backhoe Loaders have the power to perform it efficiently with the best-in-class 100 HP engine under the hood.

These machines have a dynamic design and all of the features that enhance productivity and efficiency while reducing operating cost. Moreover, they are smooth and very comfortable to work with.

This new Backhoe Loader completes the pioneering range of Bobcat loaders, including: the legendary Bobcat Skid-Steer Loaders (SSL), the reliable Mini-Excavators (MEX), the powerful Compact Track Loaders (CTL), and the rugged Telescopic Handlers (TLS).

The Backhoe Loader augments Bobcat's iconic image as a premium brand in the compact equipment industry and enables Bobcat to make the bridge between its compact line and the Doosan heavy line. This machine clearly positions Bobcat and its products as a complete and powerful compact brand that all customers can rely on.

features & benefits

- Best-in-class 100 HP engine, matched with reliable and durable components
- The standard 2-year Powertrain warranty
- All the high-value features
