

# Thin Brick Multi Use Formliners

## Versa-Brix®-M

**VERSA-BRIX® M**

### Why Thin Brick-Clad Pre-Cast Concrete using Versa-Brix® M, S, & 3-D Formliners?

- 2400 lbs. per square inch pullout strength
- No tuck pointing needed
- Faster completion time
- Less energy to produce & transport
- Minimal long term maintenance

### Versa-Brix® Multi-use ideal for:

- Office buildings
- Parking garages
- Box buildings
- Stadiums
- Sound walls
- Condominiums

### Versa-Brix® Multi-use for:

- Large square footage pre-cast concrete projects
- Coved and raked mortar joints
- Repetitive casting
- Any column cover
- Any typical brick return condition
